

people-powered protection AT WORK

Business security that's engineered to be high on protection,
light on resources and easy-to-use

Why AVG?

The world of small business has changed. Businesses like yours rely increasingly on the Internet to provide the tools to compete and succeed. As you and your employees communicate and store more of your commercial and personal information online, these trends in work practices have attracted a new generation of cyber criminal. Traditional security systems and online safeguards are no longer enough; you need next generation business protection.

Welcome to AVG. Innovating to protect today's 'Internet-active' small business.

Running a small business is about being free to do what you love, to do what you're best at, to do that which got you into business in the first place.

You're the one for whom we built AVG. All the benefits of a world renowned security expert, made practical and accessible for the small business.

- ✓ Boasting industry leading protection, keeping your business safe both online and offline
- ✓ Engineered to be fast, light on resource and easy to use
- ✓ Encompassing solutions to suit your business network, from laptops and PCs to networks and servers.

Creating more time for the day job, fewer frustrations and providing the freedom to fully embrace every online opportunity, without a second thought.

It all adds up to AVG.

The AVG Difference:

AVG is one of the world's most recognizable names in online threat protection, with 110 million businesses and consumers around the world relying on us to keep them safe.

AVG 2011 combines multiple layers of protection so that you won't have to worry about security threats to your data or your business.

1 LEADING WEB PROTECTION

AVG LinkScanner® comes with all our security products, keeping your business protected from threats that can be hidden on any type of website.

AVG Identity Protection™ uses the latest behavioral technologies to identify software that behaves strangely and stop it before it can do any damage to your business.

AVG's Social Networking Protection is new for 2011 and unique to AVG. Real time, automatic checking of links exchanged within Facebook and MySpace, keeping your business safe during the ever increasing use of social networking.

2 POWERED BY OUR COMMUNITY

AVG Community Protection Network is new for 2011 and is like an online neighborhood watch, helping everyone in the online community to protect each other.

AVG Protective Cloud Technology is also new for 2011. We constantly carry out tests 'in the cloud' over the Internet to identify and provide protection for the latest emerging threats—without interrupting your business.

3 SAVING YOUR BUSINESS VALUABLE TIME

AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working.

AVG Remote Admin Console has been enhanced for AVG 2011 and enables you to install and deploy simply and rapidly across your business network without leaving your office.

Reasons to choose AVG

- For over 20 years we've been creating award-winning security software
- More than 110 million people trust us to protect them online
- We earn excellent ratings from the independent antivirus testing labs
- Free technical support and updates to latest versions throughout your subscription term
- Our 30-day money back guarantee means your purchase is risk-free

People who know security recommend AVG

AVG employs the world's leading experts to develop cutting-edge technology. But don't just take our word for it—have a look at some of the awards we've won.

Helping you choose the right AVG protection for your business

No matter what your business requirements or network structure, AVG has a solution for you.

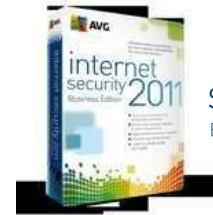

AVG IS IDEAL FOR:

- ✓ Internet active companies performing a wide range of online activities involving banking or purchasing transactions and customer, supplier or partner communications.
- ✓ Companies who are tired of over-engineered solutions that slow them down.
- ✓ Companies looking for an easy-to-use security solution that is ideal for their small to medium business needs.
- ✓ Companies with Microsoft Windows® networks.
- ✓ Companies needing complete protection for laptops, PCs, servers and remote workers.

Apply these questions to your situation or see the overview table below to identify the right solution for your business:

| | | | | | |
|---|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|
| Is your business network made up of workstations (laptops and PCs) only? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Do you also have a file server on your network? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Do you also have a mail server on your network? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| In addition to robust core business protection, do you also want to protect your business workstations and servers from Spam? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Do you already have laptop and PC protection and only require file server protection? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Do you already have laptop and PC protection and only require mail server protection? | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Do you have non-Windows servers on your network? (Linux / FreeBSD) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| The optional Remote Admin Console is available with all business products | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| A Free AVG Rescue CD is available to all AVG customers | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| WE RECOMMEND: | | | | | |
| File Server Protection | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Workstation (Laptops, PCs) Protection | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> | <input checked="" type="radio"/> |
| Workstation (Laptops, PCs) Anti-Spam | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> |
| Mail Server Protection | <input type="radio"/> | <input checked="" type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> |

internet security 2011
Business Edition

Ultimate business protection for your laptops, workstations, file and email servers

The internet is your business's key to success; from online transactions and email communications to handling sensitive customer data. With multiple layers of protection, smart scanning and a user-friendly management console, AVG Internet Security Business Edition 2011 is the ultimate solution for businesses that need peace of mind from software that's engineered to be high on protection, light on resources and easy-to-use.

FASTER, LIGHTER AND MORE POWERFUL

AVG Internet Security Business Edition 2011 includes priority updates, has a brand new look and feel and is more intuitive to use than ever before. Now you can:

- ✓ **Save valuable time for your business** with AVG Smart Scanning
AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working.
- ✓ **Keep hackers out of your network** with AVG Firewall
AVG Firewall now includes smart intrusion detection capabilities to keep your networks—whether they are wired or wireless—even more secure.

PEOPLE-POWERED PROTECTION

- ✓ **Install and deploy simply and rapidly across your business network** with Remote Administration Console
Customizable and easy-to-use remote admin console puts you in control by enabling remote installation, deployment and management of your business network security no matter where your employees are located.
- ✓ **Benefit from the most up to date protection** with AVG Protective Cloud Technology. You won't get disturbed as AVG constantly carries out tests 'in the cloud' to identify the latest emerging threats, develops solutions—on our machines—and deploys them to yours. Your business will always have the most up to date protection for every threat we discover.
- ✓ **Benefit from the AVG community** with AVG Community Protection Network
The AVG Community Protection Network acts like a neighborhood watch for the online world, helping everyone in the online community to protect each other.

SUPERIOR WEB SAFETY

- ✓ **Secure your business automatically from the latest and toughest internet threats** with AVG LinkScanner®
Shows safety ratings in search engine results and ensures every web page your staff visits is safe—even before they go there.

- ✓ **Promote your business safely on Social Networks** with AVG Social Networking Protection™
Real time, automatic checking of links exchanged within Facebook and MySpace, keeping your business safe during the ever increasing use of social networking.
- ✓ **Protect your business's identity and ensure safe online business transactions** with AVG Data Protection. AVG Data Protection goes way beyond typical identity theft protection solutions and identifies software that is behaving suspiciously in order to protect your business data and identity.

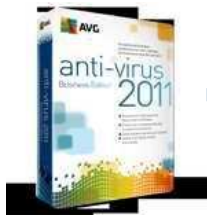

COMMUNICATE SAFELY AND EFFICIENTLY WITH CUSTOMERS, PARTNERS AND SUPPLIERS

- ✓ **Safe and clutter free inbox** with AVG Anti-Spam.
Marks all unwanted emails as spam, protecting you and your business from online scams and keeping your inbox clutter free.
- ✓ **Unclutter and protect your email servers** with AVG email server protection.
Keeps your email servers free from viruses and spam, ensuring the smooth running of your vital email system.

Plus, you get all the benefits of

- Ultimate endpoint security for your employees' Laptops and PCs
- File Server protection to prevent malware from spreading across your network
- Email Server protection against spam, phishing and email threats
- Automated Security Updates plus security monitoring and reporting
- Centralized configuration, reporting and updating
- One-stop license management
- Security policy enforcement

anti-virus Business Edition 2011

Exceptional business protection for your laptops, workstations and file servers

file server Business Edition 2011

Essential anti-virus and anti-spyware protection for your Windows file servers

Your business relies on the smooth running of your computers and networks. AVG Anti-Virus Business Edition 2011 offers exceptional real time protection against the latest online threats, keeping your critical business data safe, your computers and networks running smoothly and enabling you to focus on your business. Incorporating award-winning, leading-edge anti-virus, anti-spyware and dynamic data protection for workstations and file servers, AVG Anti-Virus Business Edition 2011 provides robust and rapid business security in one easy-to-use and easy-to-manage solution.

FASTER, LIGHTER AND MORE POWERFUL

AVG Anti-Virus Business Edition 2011 includes automatic updates, a streamlined scanning interface, and is more intuitive to use than ever before. Now you can:

- ✓ **Save valuable time for your business** with AVG Smart Scanning. AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working.
- ✓ **Keep hackers out of your network** with AVG Firewall. AVG Firewall now includes smart intrusion detection capabilities to keep your networks—whether they are wired or wireless—even more secure.

PEOPLE-POWERED PROTECTION

- ✓ **Install and deploy simply and rapidly across your business network** with Remote Administration Console. Customizable and easy-to-use remote admin console puts you in control by enabling remote installation, deployment and management of your business network security no matter where your employees are located.
- ✓ **Benefit from the most up to date protection** with AVG Protective Cloud Technology. You won't get disturbed as AVG constantly carries out tests "in the cloud" to identify the latest emerging threats, develops solutions—on our machines—and deploys them to yours. Your business will always have the most up to date protection for every threat we discover.
- ✓ **Benefit from the AVG community** with AVG Community Protection Network. The AVG Community Protection Network acts like a neighborhood watch for the online world, helping everyone in the online community to protect each other.

SUPERIOR WEB SAFETY

- ✓ **Secure your business automatically from the latest and toughest internet threats** with AVG LinkScannerSM. Shows safety ratings in search engine results and ensures every web page your staff visits is safe—even before they go there.
- ✓ **Promote your business safely on Social Networks** with AVG Social Networking ProtectionSM. Real time, automatic checking of links exchanged within Facebook and MySpace, keeping your business safe during the ever increasing use of social networking.
- ✓ **Protect your business's identity and ensure safe online business transactions** with AVG Data Protection. AVG Data Protection goes way beyond typical identity theft protection solutions and identifies software that is behaving suspiciously in order to protect your business data and identity.

Plus, you get all the benefits of

- Exceptional endpoint security for your employees' Laptops and PCs
- File Server protection to prevent malware from spreading across your network
- Automated Security Updates plus security monitoring and reporting
- Centralized configuration, reporting and updating
- One-stop license management
- Security policy enforcement

Protecting the critical data stored on your file servers and maintaining their efficiency is vital for your business. AVG File Server Edition 2011 provides award-winning anti-virus and anti-spyware protection for Windows file servers, preventing viruses and other threats from spreading across your network. If you already have robust protection on your laptops and PCs but don't have protection for the critical business data on your file server, this is the solution for you. AVG File Server Edition 2011 also includes key additional technology to protect your server against threats from unsafe websites.

GET THE MOST OUT OF OUR PEOPLE-POWERED PROTECTION

- ✓ **Install and deploy simply and rapidly across your business network** with Remote Administration Console. Customizable and easy-to-use remote admin console puts you in control by enabling remote installation, deployment and management of your business network security no matter where your employees are located.
- ✓ **Take advantage of the most up to date protection** with AVG Protective Cloud Technology. You will experience no interruptions as AVG constantly and silently carries out tests "in the cloud" to identify the latest emerging threats, develops solutions—on our machines—and deploys them to yours. Your business will be provided the most up to date protection for every threat we discover.
- ✓ **Benefit from the AVG community** with AVG Community Protection Network. The AVG Community Protection Network acts like a neighborhood watch for the online world, gathering threat data from an ever expanding community and deploying solutions to help everyone to protect each other.

EXPERIENCE SMARTER, FASTER SECURITY THAT WON'T SLOW YOUR BUSINESS DOWN

- ✓ **Save precious time for your business** with AVG Smart Scanning. AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working. It also doesn't waste valuable time scanning files that are already known to be safe.
- ✓ **Secure your business automatically from the latest internet threats** with AVG Anti-Virus, Resident Shield and Smart Anti-Rootkit. Prevents your business from falling victim to or unwittingly spreading a virus, worm, or Trojan horse.
- ✓ **Protect your critical business data** with AVG Anti-Spyware. Protects your business from Spyware and Adware that keep track of your sensitive business data.

Plus, you get all the benefits of

- Automated Security Updates plus security monitoring and reporting
- Centralized configuration, reporting and updating
- One-stop license management
- Security policy enforcement

email server 2011 Business Edition

Essential anti-virus, anti-spyware and anti-spam protection for your email servers

Email is the lifeblood of your business, enabling efficient communications with staff, customers and suppliers no matter where they may be located. Your business data, your time and your reputation are too precious to jeopardize by the damage that could easily ensue from clicking on dangerous links or opening an infected file. If you already have virus protection on your laptops and PCs but don't have protection for the critical data traveling through, and stored on your mail server, you need the award winning protection of AVG Email Server Edition 2011.

COMMUNICATE SAFELY AND EFFICIENTLY WITH CUSTOMERS, PARTNERS AND SUPPLIERS

- ✓ **Safe and clutter free inbox** with AVG Anti-Spam. Marks all unwanted emails as spam, protecting you and your business from online scams and keeping your inbox clutter free.
- ✓ **Clean and protect your email servers** with AVG email server protection. Keeps your email servers free from phishers, spammers, scammers and viruses, ensuring the smooth running of your vital email system.

GET THE MOST OUT OF OUR PEOPLE-POWERED PROTECTION

- ✓ **Install and deploy simply and rapidly across your business network** with Remote Administration Console. Customizable and easy-to-use remote admin console puts you in control by enabling remote installation, deployment and management of your business network security no matter where your employees are located.
- ✓ **Take advantage of the most up to date protection** with AVG Protective Cloud Technology. You will experience no interruptions as AVG constantly and silently carries out tests "in the cloud" to identify the latest emerging threats, develops solutions—on our machines—and deploys them to yours. Your business will be provided the most up to date protection for every threat we discover.
- ✓ **Benefit from the AVG community** with AVG Community Protection Network. The AVG Community Protection Network acts like a neighborhood watch for the online world, gathering threat data from an ever expanding community and deploying solutions to help everyone to protect each other.

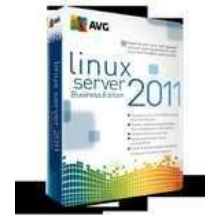

EXPERIENCE SMARTER, FASTER SECURITY THAT WON'T SLOW YOUR BUSINESS DOWN
